

Owen Pell

Building and Civil Engineering Contractors

Building the future on a foundation of *Excellence.*

Since 1976, **Owen Pell** has been redefining construction excellence in Herefordshire and the surrounding counties. Our extensive experience across a diverse range of Residential Building, Construction, and Civil Engineering projects has helped countless clients realise their visions, earning Owen Pell a reputation for our high-quality, consistent, and reliable services.

Owen Pell Ltd

Leveraging over 46 years of experience in building and civil engineering, we have collaborated with a diverse range of clients, including businesses, organisations, individuals, contractors, architects, and councils.

We offer our clients high-quality, cost-effective services for building construction and civil engineering projects. We combine cutting-edge technology and techniques to deliver tailored solutions for projects of all sizes, from the simplest to the most complex.

Our Services

Buildings

We are adept in the execution of industrial, commercial, residential, school and estate building projects.

Civil Engineering

From highway and cycleway construction to drainage and flood defenses, we excel in managing and supporting a wide range of civil engineering projects.

Refurbishment

Refurbishment of existing buildings, including industrial and multistorey, using the latest materials and techniques.

Groundworks

Site clearance and preparation for new builds, highways and cycleways as well as flood alleviation projects.
